CAUTION: The test was developed and its performance characteristics determined by Eurofins NTD, Inc. It has not been cleared or approved by the U.S. Food and Drug Administration. The methods and performance characteristics have been reviewed and approved by the New York State Department of Health. These results do not eliminate the possibility that this pregnancy may be associated with birth defects including open neural tube defects, ventral wall defects, Down syndrome, trisomy 18, or other disorders not detectable by this screening test. This report contains Protected Health Information. The recipient shall not disclose this information without the permission of the patient unless required to provide appropriate medical care. **Any recommendations or comments on specific analytes are provided as a courtesy to the ordering physician and do not constitute medical advice.**
